

Cinebook Recounts the Wright Brothers

By Jean Pierre Lefevre-Garros, Marcel Uderzo

Cinebook Ltd. Paperback. Book Condition: new. BRAND NEW, Cinebook Recounts the Wright Brothers, Jean Pierre Lefevre-Garros, Marcel Uderzo, This third volume recounts the Wright Brothers, who invented the modern aeroplane. The brothers made the first controlled, powered and sustained heavier-than-air human flight on 17 December 1903 and, in the two subsequent years, they developed their flying machine into the first practical fixed-wing aircraft. Although not the first to build and fly experimental aircraft, the Wright brothers were the first to invent aircraft controls that made fixed wing flight possible.

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
