Excerpt from An Inaugural Dissertation on the Nature and Origin of Vaccina, or Cow-Pock: Submitted to the Public Examination of the Faculty of Physic, Under the Authority of the Trustees of Columbia College, in the State of New-York, the Right Rev. Benjamin Moore, D.D. President; For the Degree of Doctor of Physic, on the 8th Day of November The subject to which I have devoted the following pages is, I conceive, one of the most important that can engage the attention of the medical practitioner or of the public. It is not only intimately connected with the interests and policy of States and Empires, but involves in its consequences the health and happiness of all posterity. Not more than five years have elapsed since the astonishing effects of this inestimable blessing were made known to the world, by its first great inoculator. Dr. Jenner, in a work, entitled, An Inquiry into the Causes and Effects of the Variolae Vaccina, a Disease discovered in some of the Western Counties of England, particularly Gloucestershire, and known by the Name...
