"Modern Book Collecting" offers advice that answers all the most important questions a book lover and collector might have: what to collect and where to find it, how to tell a first edition from a reprint, how to build an author collection, how to get the best price from dealers, how to understand the prices and rarity of books, and more. Covering every aspect of book collecting, this book includes a handy dictionary of terms used in auction and dealer catalogs, a comprehensive and accurate key to identifying first editions from nearly two hundred American and British publishing houses, a list of bibliographies of more than two hundred collected modern authors, a directory of book auction houses and rare book dealers, and a section on Internet resources.
