The United States and European Union (EU) share a huge and mutually beneficial economic partnership. Not only is the U.S.-EU trade and investment relationship the largest in the world, it is arguably the most important. Agreement between the two economic superpowers has been critical to making the world trading system more open and efficient. Given a huge level of commercial interactions, trade tensions and disputes are not unexpected. While trade tensions in the past have tended to ebb and flow, some observers believe that this year's threat of a trade war is more serious than before. A dispute over steel trade is the proximate cause of rising trade tensions, but other high-profile disputes involving tax breaks for U.S. exporters and the treatment of genetically-engineered (GE) products lurk in the background. Resolution of U.S.-EU disputes has become increasingly difficult in recent years. Part of the problem may be due to the fact that the U.S. and the EU are of roughly equal economic strength and neither side has the ability to impose concessions on the other. Another factor...

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that I am sure that I will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
